

# Do You Want To Build a Snowman?

## DICE GAME

Each player  
will need one of  
these Olaf  
pages. →

1. Print page.
2. Cut out dice along the outside edges.
3. Fold along the Black Lines and make a tight crease with your finger.
4. Glue the sides in place along each of the edges with the tabs folded in.
5. Let the glue dry completely before you play.

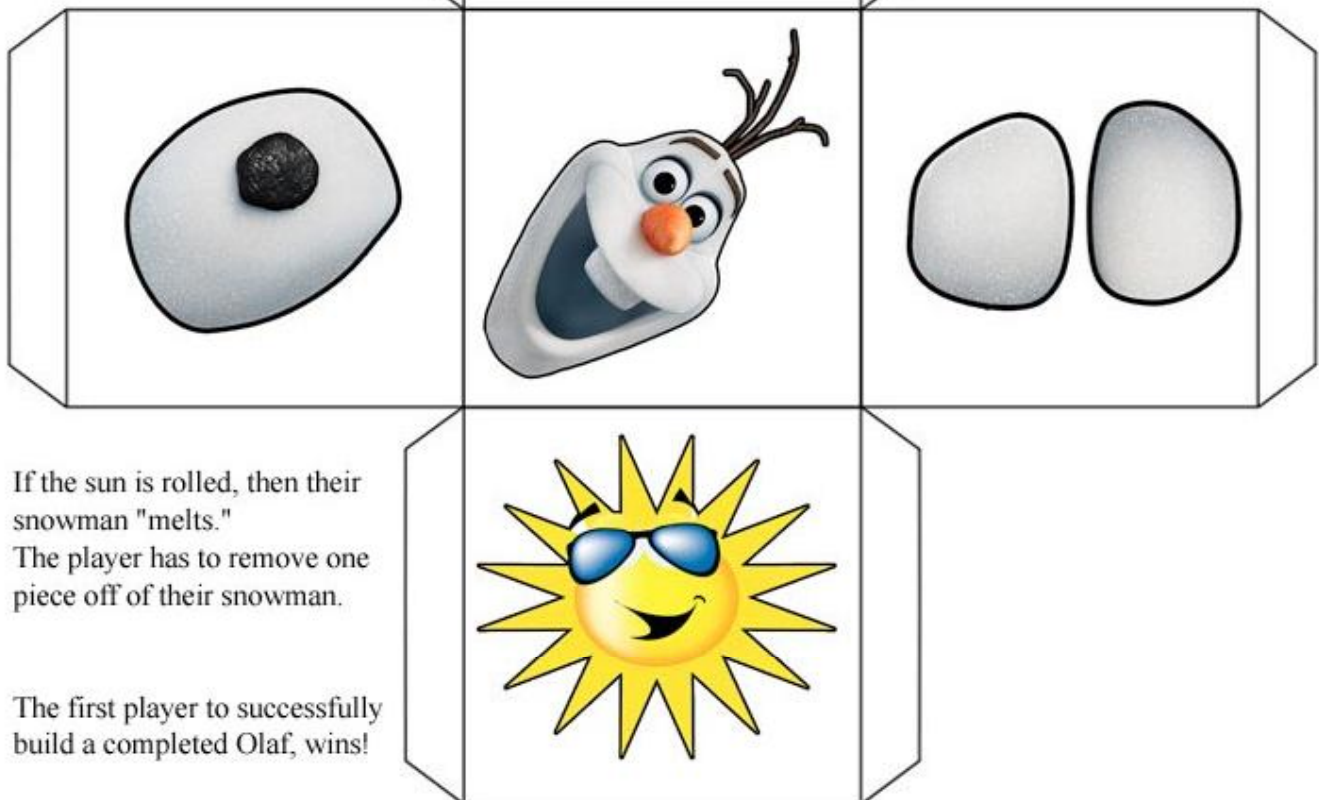

### Olaf Dice Game Instructions:

Have all players sit in a circle.  
Players take turns rolling the dice.  
Each side of the dice correlates  
with a piece of Olaf's body.

If the player rolls the dice and  
the "body" shows up on top,  
then they get to build a body  
piece on their snowman.

Play continues around the circle  
as players roll and add the  
corresponding body part.

If a player rolls a body part that  
they have already built, they  
don't place anything on their  
snowman for that turn.

If the sun is rolled, then their  
snowman "melts."  
The player has to remove one  
piece off of their snowman.

The first player to successfully  
build a completed Olaf, wins!
